

KANSAS STATE LOAN REPAYMENT PROGRAM

The Kansas State Loan Repayment Program (SLRP) offers eligible health care providers an opportunity to receive assistance with repayment of qualifying educational loans in exchange for a minimum two-year commitment to provide health care services at an eligible practice site in a federally designated Health Professional Shortage Area (HPSA). The SLRP is jointly funded by the State of Kansas and the National Health Service Corps.

Providers must agree to work in the approved ambulatory out-patient setting for two years and will receive up to \$25,000 (physicians or dentists)/\$20,000 (all other providers) per year of service commitment. After successful completion of the initial service obligation, health care providers may apply to extend their Agreements in one-year increments up to three years to continue receiving loan repayment assistance.

The SLRP awards are made annually through a competitive process. Applications are scored through a structured review process based upon Community Need, Practice Site Information, and Provider Personal Statement. For more information visit the SLRP webpage at www.kdheks.gov/olrh/FundLoan.html.

HEALTH CARE PROVIDER & PRACTICE SITE ELIGIBILITY ...

- Health care provider must have a current permanent Kansas license to practice and commit provide health care services at an ambulatory public or non-profit private entity.
- Health care provider must be a US citizen or national. Award preference is given to Kansas residents.
- Health care provider must be employed or will be employed at an approved practice site full time at the beginning of the SLRP agreement.
- Approved practice site must be a non-profit or public entity and located in a Kansas federally designated Health Professional Shortage Area (HPSA) in the appropriate discipline of the health care provider's licensure.
- Practice site and provider must provide services to individuals regardless of insurance type or ability to pay, and must accept assignment under Medicare and Medicaid. Practice site and provider must charge for services at the usual and customary rates prevailing in the areas in which such services are provided. If someone is unable to pay such charge, the patient shall be charged at a discounted sliding fee or not charged any fee.
- Practice site must have a written nondiscrimination policy and provide services in a culturally and linguistically appropriate fashion responsive to the needs of the area's general population.
