Objectives:

At the conclusion of the presentation the participant will be able to:

- Differentiate between the causes of acute and subacute post-polypectomy bleeding
- Evaluate treatment options for acute and subacute post-polypectomy bleeding
- Identify which high risk endoscopic procedures are more likely to result in bleeding complications

Continuing Education Credits: This Live series activity, KUSM-W Department of Family and Community Medicine 2017 Faculty Development Series, from 01/01/2017 - 12/31/2017, has been reviewed and is acceptable for credit by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
