Objectives:

At the conclusion of the presentation the participant will be able to:

- Identify the goal cecal intubation rate.
- Differentiate which medicinal, physical, and positional manipulations of the patient will help achieve cecal intubation.
- Describe new technologies and techniques which may aid in cecal intubation.

Continuing Education Credits: This Live series activity, KUSM-W Department of Family and Community Medicine 2017 Faculty Development Series, from 01/01/2017 - 12/31/2017, has been reviewed and is acceptable for credit by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
