Clinical Assistant Professor
KUSM-W Family & Community Medicine

Mark Orr, JD
Chief Public Defender
Sedgwick County/18th Judicial District

Daniel Warren, MD
Assistant Professor
KUSM-W Family & Community Medicine

OBJECTIVES

At the conclusion of this symposium, the participant will be able to:

- Counsel patients on three strategies to reduce the health risks associated with intravenous drug use
- Identify three primary care conditions that affect addiction treatment retention or relapse
- Describe the commonalities and differences of treating opioid use disorder in special populations such as those who are pregnant, hospitalized, or in chronic pain
- Identify common legal problems associated with addiction in order to advocate for patients receiving addiction treatment

Application for CME credit has been filed with the American Academy of Family Physicians.

Determination of credit is pending.

** Please note this session is not offered for continuing medical education credit.*
