

You are invited to a special event to learn more about OneCare Kansas!

OneCare Kansas is a free program to provide extra support for people who have KanCare insurance and have certain serious health conditions. These services can help make sure you have the right health care services for your condition as well as find and get support services in your community to help you stay as healthy as possible.

Join us to learn more about who can participate in the program, the services that are available, and how to get started.

Who should attend?

- People who are enrolled in KanCare **and** are living with Asthma, Paranoid Schizophrenia, or Severe Bipolar Disorder
- Family or community members or providers who support people living with the above conditions
