12:00 a.m.	Instructions for Completion of Notification Form

PRESENTED BY

Tim Scanlan, MD
Education Professor
KUSM-Wichita
Dept. of Family & Community Medicine

Daniel Warren, MD
Assistant Professor
KUSM-Wichita
Dept. of Family & Community Medicine

ACKNOWLEDGEMENTS

This activity is supported, in part, by an educational grant from DCCA.

This seminar will specifically focus on buprenorphine treatment of opioid use disorder in an office-based setting. The standard Provider Clinical Support System (PCSS) will be presented and will qualify for the first half of training to receive the DATA 2000 buprenorphine waiver.

OBJECTIVES

At the conclusion of this symposium the participant will be able to:

- describe regulations for buprenorphine treatment of opioid use disorder
- understand how buprenorphine's unique pharmacology affects its clinical use
- review the risks of buprenorphine diversion and misuse
- present data related to buprenorphine treatment outcomes and side effects, with comparison to methadone
- apply typical history and physical interviewing to the buprenorphine induction setting
- diagnose opioid use disorder and comorbid substance use and psychiatric disorders
- review potential contraindications to buprenorphine treatment
- provide a detailed description of the buprenorphine induction process
- review typical practice for buprenorphine maintenance
- compare naltrexone with buprenorphine for specific patient populations

For more information, contact Tiffany Bonfiglio at tbonfiglio@kumc.edu or call 316-293-3533.

This Live activity, Buprenorphine Certification Course, from 10/31/2018 - 10/31/2019, has been reviewed and is acceptable for up to 4.25 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
