OPEN TO ALL MEDICAL STUDENTS

*Come on in and
participate virtually!*

Medical students interested in the diverse communities and patient demographics unique to Kansas are invited to spend the evening networking with residents and faculty from the four Kansas family medicine residency programs. Each of the programs offers a variety of opportunities for training, in rural and urban settings, at small and large hospitals, all while serving diverse patient populations.

Medical students will have the opportunity to chat with faculty and residents from each residency program. This is a great opportunity for all students to become more familiar with these programs, especially fourth-year students.

**Friday, August 28
6:00 – 8:00 p.m. CT**
