 Information technology: Not interested
 Outreach to other organizations and strategic partners: Area of expertise
 Outreach to future family physicians: Area of expertise
 Outreach to communities: Area of expertise

List any additional skills, experiences or interests you could bring to the KAFP Board of Directors:

I am core faculty for KUMC Family Medicine Residency as well as incoming program director for the KUMC Primary Care Sports Medicine Fellowship. I've served on the KAFP Professional Development Committee for the past several years. I am passionate about education at all levels. I am also committed to equity for women in medicine and promoting diversity in medicine.

*** Why do you want to serve as a KAFP Board member or officer?**

Family physicians are uniquely suited to be leaders in all aspects of medicine including education, policy, and advocacy. I am dedicated to training the future of family medicine and giving our learners the skills needed to be successful in all facets of their careers. I am also dedicated to making sure physicians already out in practice can access the toolbox they need to be successful whether that is related to practice and policy or learning additional skills valuable to their practice.

*** Explain any unique skills, abilities or perspectives you can bring to the organization.**

Prior to moving back to Kansas in 2017, I served 7 years active duty Army and 8 years as a government civilian in the military medical system. I practiced medicine in many different environments and witnessed varied practice settings. I network with family physicians across the country. I have a unique skill set practicing full service family medicine including obstetrics as well as sports medicine. I also continue to practice and develop procedural skills not all family physicians perform such as vasectomies and Botox for migraines. I practice and teach point-of-care ultrasound which is a valuable tool for family physicians in varied settings.

*** Please list any groups or organizations that you could serve as a liaison to on behalf of KAFP.**

I am a member of the American Medical Society for Sports Medicine and serve on its Practice and Policy and Women in Leadership Lead committees. I also serve on the Strategic Health Initiative - Women in Sport and Professional Education committees for the American College of Sports Medicine. I serve on the Military and Veteran's Committee and Veteran Resource Group at the University of Kansas Health System to further the needs of our military veterans.

If there is any additional information you wish to share with the Nominating Committee, please do so here.
